It's ATA 100, so it is not the latest interface, but what a deal.

DCYea DJ, the sound returning to Paris was actually ahead by quite a bit. In SX, I put the analogX sample delay after the wormhole and was able to delay the signal returning to Paris to make it ling up with the original source. Wormhole wasn't solid thow, the returning signal kept dropping out and loosing sync.

Rob

=  
These royalties have been payable since February 1, 1996. If your music has =  
been played on the Internet since that date, you are entitled to a share of =  
the royalties.

On December 15, 2006, any royalties that are unclaimed for =  
performances up through March 31, 2000 WILL BE FORFEITED.

If you, as an individual or as a member of a recording group, are not  
registered with SoundExchange by December 15, 2006, you will lose all =  
rights to your royalties earned before March 31, 2000.

There are thousands of identified artists who will lose these =  
royalties unless they act before the deadline. SoundExchange has listed these  
"unfound" artists on their website.

<http://63.236.111.137/jsp/unpaidArtistList.jsp>

Take the time to read the list. If you are on it, follow the =  
instructions for filing a claim. It costs you nothing and it does not take much =  
time. If you register now, you will receive the unclaimed royalties and will =  
received future royalties automatically.

Friends and families of recording artists should also check the list. =  
If you know anyone on there, PLEASE LET THEM KNOW IMMEDIATELY. You will

\$1,400.00 for a 4-slot Magma chassis?

Wow.

That definitely ain't happening.
