scrubbing the accumulated grunge off the inside of the cabinet, I accidentally scrubbed off the original label that has the SN. the cab was made in 1961, the amp head in 1962. I stapled 2" acoustic foam to the inside of the cab This could be removed and replaced with the 1/2 inch stuff that came standard with these cabs and it would have a bit more resonance.....not much...but it would voice a bit differently.
