Be Your Man (1963)

To See You Again (1964)

In addition, McCartney wrote songs under his own name for other artists prior to the Beatles' split; notably Badfinger's 1969 hit Come and Get It. He also penned the song Woman (1966) for Peter & Gordon under the pseudonym Bernard Webb, to see if the song would gain success without his reputation. It did.

I remember several of these. Good tunes.

it still won't, swap video or power supply, finally, swap motherboard.
It just gets uglier !!

They all sound different. I like a darker shaker sound
sometimes and this provides it.=20

DO n AN URGENT MESSAGE TO RECORDING ARTISTS

SoundExchange is the entity that collects and distributes broadcast royalties from digital distribution of music. This includes streaming Internet broadcasts (not downloads) and satellite radio services. These royalties have been payable since February 1, 1996. If your music has been played on the Internet since that date, you are entitled to a share of the royalties.

On December 15, 2006, any royalties that are unclaimed for performances up through March 31, 2000 WILL BE FORFEITED.

If you, as an individual or as a member of a recording group, are not registered with SoundExchange by December 15, 2006, you will lose all rights to your royalties earned before March 31, 2000.

There are thousands of identified artists who will lose these royalties unless they act before the deadline. SoundExchange has listed these "unfound" artists on their website.

<http://63.236.111.137/jsp/unpaidArtistList.jsp>

Take the time to read the list. If you are on it, follow the instructions for filing a claim. It costs you nothing and it does not take much time. If you register now, you will receive the unclaimed royalties and will received future royalties automatically.

Friends and families of recording artists should also check the list. If you know anyone on there, PLEASE LET THEM KNOW IMMEDIATELY. You will note that there are a number of deceased performers on the list. If you know any surviving relatives, let them know about this.

This money belongs in the hands of the artists who created the music.This is a multi-part message in MIME format.
