>OK, I notice that the 2-channel Transient Designer has a list
price of right at the same level as the Project card's street
price. Considering that, would you be willing to pay shipping
both ways for a straight-across trade for the Project Card &
the Transient Designer? AND... is the SPL unit that you have
capable of switching between US & Euro voltages - which are the
ones I assume you use there in Greece?

Are you interested in a direct trade of the Pulsar II card and my Transient designer device ?
Everyone pays his shipping expenses.
