onfiguration is never saved.

- > It remains C-16 1 is Classic and 2 & 3 are Pro mode.
- > I saved the project before resarting though. Hmmm?=20
- > Everything else seems to save ok.
- > The audio on card B never works. I have to assign =

Submix 2

- > to Card C. I've tried two cards
- > with the same results. I'll try another. Paris closes =

fine

- > but a Windows error comes up and
- > asks if I want to send it to their sorry asses =

everytime.=20

- > No BSOD
-
