even grok how many digital connects. I figured I'd have a few days to check all of them (make sure I patched them all in properly and that they were all working). Well, today, the clients keyboardist calls to chat about midiing up his controller.....WTF, I think to myself....that's no biggie.....and then he just happens to mention the full drum kit, bass 2 guitarists and 3 singers that will also just *happen* to be showing up.

This was at 4PM. Well, I've now 16 hot mics set up and as I've continued to check the connectivity, I've only found one bad connection.....a faulty lightpipe cable. Everything else appears to be working perfectly. What are the odds?.....especially sinc
