hipping

I'm pairing down my system a bit and this is the last piece I need to sell. I'm leaving for a month a week from Wednesday and it would be great to sell it before then.

Email me at: me at johnshapiro dot com

I haven't posted on here much over the years, but I'm sure Jamie K. would vouch for me as he lives down the street in Denver and we were in a band last year. Also, I just sold an EDS card to Vern. So I'm sure he'd vouch as well. Sent you an email.....

If you sent me a message previously, I apologize for any lack of response.

... here's what's left:

(2) IF/2 - \$25 each.

(1) ADAT MEC Card - \$195

(1) MEC -\$75

Plus shipping.

I also have an A8iT that functions perfectly in terms of audio but the signal LEDs on ch 1 and 2 aren't working. Yours for \$150 and shipping.

Plea

autifully packed and ready to roll, but I haven't heard back from you.

What's going on? I kinda feel screwed here, because I've already paid to have it well-packed for the trip.
