s compatible with your system.

Computer: \$40

I do have the computer I was running the paris on so it does have the pci slots.

; occasionally, and occasionally errors regarding not enough memory. I tried to add more memory but couldn't get it to run 4 sticks at the same time. It is heavy and in a large case so would be fairly expensive to ship but I would be willing to sell it for a low price, plus the shipping. Let me know if interested. Those of you who
