includes the two PCI host cards and cable.

It will also work with the new Magma PCIe card. Works fine with Intel/AMD mainboards. I'll guarantee it.

It is not compatible with the new Mac Pro models that require the Pericom chipset.

\$360.00 plus shipping.

PM me at animix@animas.net or call 970-769-0488

DeejFor sale: \$250 o.b.o.

card

All items are very well maintained. The system had never been expanded beyond the basic set-up. Please note: I do not have the 3.0 software. Paypal would be best. Buyer pays for shipping. I have the original boxes and packing.

reply to blindfreddy at earthlink dot netI have the following for sale:

8-input card (good condition) \$160.00 shipped

8-output card (good condition) \$175.00 shipped

C-16 (mint condition, looks new) \$85.00 shipped

Email if interested..

Thanks,

TommyWell I've decided to get rid of these two cards

DonGreetings all!

As title says, I have an IF-2 and a 3.0 CD with authorization code for sale.

The 3.0 software is not tied to any specific hardware, it was bought new, on its own. I believe I also still have the manual printed out, and in a binder. If interested send an email and make an offer! (be sure to remove "NOSPAM" from the address)

Will post a followup when sold, so until then, it should be pretty safe to assume I still have them available.

Thanks!

ScottHello Friends,

Here is a Paris Bundle 3 setup that has an 8 in and a 8 out card added to the MEC.

Asking \$325.00 + shipping from Austin, TX to You!

- MEC
- C16
- EDS-1000
- 8 in/8 out cards - the cards are the 1/2 cards with no meters on the front of the MEC however they work perfectly

- cables
