Cujo,
I don't know about Neil but I was on Beacon Hill during the Blizzard of =
'78.
National Guard and everything. It was so cool to be stranded as a =
Berklee
student on the hill. Those were the good old days. I didn't care about
politics back then. I forget if that even mattered.

Keep kickin' out the tunes Cujo!
Tom

"Cujo" <chris@nospamapplemanstudio.com> wrote in message =
news:44dd725d\$1@linux...

Oh Sorry, I guess I forgot I already mentioned it..If I did...
I was down the street in Framingham at the time, Are you from MA Neil?

"Neil" <OIUOI@OIU.com> wrote:

FAX 01793 512252
Brandon, I've been using a Logitech wireless Keyboard/mouse with my
Win98SE

computer for about 5 years with no problems.

TyroneThanks guys.

I have had a few friends who used these wireless keyboards and it always screwed up their systems. I tried to help them get it working, but eventually told them to stop using it. That's why I worry about trying it myself. It would solve some wiring issues for me and also be cool to have a remote transport control. I will have to try it. How far is the range? Have you guys tested it?

thx

I will might actually have two comps side by side in the case which will leave no room for getting in and out quickly. I was going to put my audio comp and my internet comp in there, but to reduce heat build up I should only put the audio comp in there. I don't usually surf the internet while I am recording anyway.

However, I do use a KVM switcher and will have to get some extensions to make that work. That will leave room to get in and out.

Also, I am very concerned about dust build up on the insulation.

I guess regular maintenance will be required.

thx,
b

Cosmetically I would like to put a wooden door, but thought
I should ask if there was something I am over looking. I got those cool glow
led fans that I wont be able to see. Other than that I can't think of a reason
to go thru the trouble of a plexiglass door. Will plexiglass disipate heat
better than the wooden door?
thx,

to turn
the other cheek, because operating under the "Messianic Law" of Eye for and
Eye yield "Nothing" but 10,000 years of silly fighting with no end in sight.

What happens when a man turns the the proverbial cheek?
Is he the weaker one?? Even if the aggressor keeps hitting you, eventually,
he starts to understand that he cannot break you down" and thus he starts
to honor your calm strength..

Well you say " Our enemies only no one way and that their aggression". Well,
what has that gotten the USA?? Once we gave into their aggression, we now
have "Lowered" our standards" to their level.. Now, who's running who..??

The Late Dr Martin Luther King Jr, used Ghandi's method of change their "Non-Violence"
and it was effective. Some in our race (Islam) wanted to use Force, which
would've only incited a full-out race war. What good would that have done??What
would've been gained if the African American populous would've listened to
the Nation of Islam and gone "Guns Blazing"?? We'd still be killing each
other. Thanks God cooler heads prevailed..

All in all, God ways are the best way and not Man's way.
LAD..
