tied all my locks to structures that exist per card, but you never know  
until you try. :)

Anything is good, though. I'm setting up timings based on my setup, but  
another machine may reveal them to be too tight.

Thanks again!

Mike

>Hi James,

The PSCL is part of the driver. It has several sections that aren't threadasfe,  
which means they fail on a multi CPU machine. I'm trying to fix it.

All the best,

Mike

Here's a newer build. It doesn't give me the "can't find interface on master card" error anymore.

Cheers!

Mike
