ts negotiate a

> price.

Sorry guys: this was meant for the For Sale ForumI currently have my Paris rig running on WinME

- If I wanted to

set that PC up for a dual boot (ME/XP) can I do it on the
current system drive without having to reformat & load both
OS's from scratch?

NeilNeil, I believe the key is to install ME first, then XP on a different
partition or a different drive. At least that's what I did here, 98 and xp
in same box.

Goog luck
Rob

Its not finished. Lots of gear is still not plugged in, new carpets have to go down and the recording room is yet to be set up. That room looks the same as the one in these shots, but I'm storing stuff in there for now. I know it sucks to have the monitors in front of windows. I'm not sure how to handle that -maybe draps for mixing time? I imagine that I'll have to "shoot" the room at some point. At least to know where the bumps and holes are. In the end though, this place is so much better than any other space I've been in to date. These rooms are on the second floor. Downstairs is an open, currently unfinished space about the size of a small one bay garage. Seems large enough to float a room in. If we elect to buy the house that comes with this space, maybe I'll pretend I'm a carpenter...
Pics below:
