ckface
units with Version 3 labels added. It's hard to believe that it wouldn't be worth having a few spares around in a hard-working PARIS studio. Pots need a little cleaning, but they're otherwise fine.
1 SMPTE card -- \$100 o.b.o. plus shipping. Does anyone have need of one of these cards? Make an offer. There's some debate about how well they work, but I'm into making it painless for someone to give one a try.
1 IF-442 -- \$40 plus shipping.
Will ship to US or Canada. Contact robbyberman@mac.com So I guess the question is will it sync Paris to smpte TC generated by another computer
