at's in there now and original are a Sovtek 12AX7WA
and a Phillipps 12AU7/5814A.

My goal is to enhance the top end in a musical way for lead
vocal application. I'm looking at RFT, Sovtek and Electro Harmonix.

Any suggestions with other hi end tube choices would be great.
Tom

Yep, and I'm now more determined than ever to find it.

A friend of mine dropped in night before last after a gig. He's in a drum
and bass band. Brilliant drummer he is. It's a very good band, though I'm
not so into drum and bass, but he was agreeing with me about rock being de

>>>Hey Folks,

I'm running into some trouble with this installation and
any help would be greatly appreciated.

I'm replacing my Yamaha CDR-W with a Memorex DVD recorder.
I swapped the two units following the instructions that came with the DVD
unit,

then fired up the PC. I was a little surprised that no driver installation was happening but I loaded a DVD and tried it anyway.

The PC crashed to the blue screen mentioned in the DVD manual.

OE..... bla bla VXD---

If I go to "my computer" no drives show up in the explorer page.

So I put the original CDR-W back in the PC - Same trouble now even with the original drive.

Called tech support, swapped in all new ribbon cables, checked BIOS, jumpers - no go...

Tried 3 hard drives at once, no problem there at all. PARIS 3.0 w/ 3 eds works fine.

Any tips or solutions would be very helpful.

Here is my system profile.

TIA,
Lance

Athlon 2 gig Asus

PC - Win 98 SE

450 watt Power supply

1 20 gig dr

1 80 gig dr

3.5 floppy

3 eds cardsI was reading a thread on a jazz piano site and they were discussing banter for in between songs. I was wondering if anybody here has any good ones.

Here are some from the other site:

If you have any requests, just write the name of the song on the back of a \$20 bill and I'll be happy to play it - whether or not I know it.

I'd like to dedicate this next song to all the young girls in the audience and all of you that used to be young girls and especially to all of you that ever wanted to be young girls.

For those of you who have never heard music before, this may come as quite a surprise.

I'd like to play a beautiful song for you now - but unfortunately I don't know any.

It's great to see so many people here tonight. Does your parole officer know

you're here?

Don't forget to tip your bartender and waitress(es), and, hey, I like tips too.

Just remember - If you're driving home tonight, make sure you have a car.

Q. Do you play any Elton John? A. Sorry, Elton and I have an understanding, I don't play any of his stuff, and in return he doesn't play any of mine. Would they have to be converted in PT, or is there some other program on a mac that could make the convert?

CL

Have you tried opening them up as raw files in Wavelab? If you know your

sampling rate and bit depth, you can put that in and tell it that it's in Motorola format. Wavelab should be able to open it up, and then you can save it as a WAV file and get to work.

davidstay tuned.....bitching and whining to be announced. Have you tried to clean the DVD? Sometimes I get CD's or DVD's that I have problems to read/copy from, so I buied a Disc Restore system some years ago, to take care of that. Have saved over 90% of problems with discs with it.
