someone else interested, so if he still wants it he'd better contact me asap
Maybe he's real busy.

respect

I live in Fallbrook, work in Carlsbad. So I could pick it up.

Please let me know either way. Thanks!

>NappyBoth were hand built/point-to-point wired by Parisite Mike Claytor based on the following article.:

http://www.prosoundweb.com/recording/tapeop/tube_mic_25_1.shtml

Mike did a great job on these.

Mic #1 is the original he built in 2001 that was sent to Morgan at ECCM and A/B'ed against some pretty major competition (and held it's own IIRC) It's shell is a Marshall V67 with the green body and gold plated grille. The tube is a Raytheon S5940W. It has a Jensen output tranny and sweet, sorta' "warm & forward" sound to it. It's an excellent vocal mic and the femmes tend to gravitate to this mic. A couple of years ago I had Mike replace the Marshall capsule with a Peluso cardioid capsule. It increased the level of detail a bit to my ears.

Mic #2 is also a Marshall V67 shell but with the black body and grille (I think this is the "Mogami" edition, or something like that) this mic has the same basic components and the same Jensen transformer. The tube is a Phillips ECG 3416 which my rough measurements show to output about 2d

B less

than the Raytheon in Mic #1. this is really insignificant but then the mics are gain matched, this mic has a very smooth "buttery" kind of quality. Not smeared at all and very detailed, but a different quality from Mic #1. If I were going to mic a vocalist with an edgy midrange, I'd grab this one to add a little touch of discipline.

I really like both these mics and they have served me well. They are excellent on instruments too and the only reason I'm offering these up is th
