-----020107020700040401030501--So: when running tracks out of Paris to external effects
and compression via
analog ins and outs, we get latency-related artifacts, phasing and flammings
and such.

If I clock externally with a Lucid or Apogee box, and then was able to send
and return via digital ins and outs, would the latency be negligible?

As it is, we have to nudge tracks ju

st to hear what it sounds like, which I
hate. I hate the interruption of the work-flow.

JimmySame prices for Petrol here in Australia.
I paid \$1.51 a litre for premium unleaded.
I think our dollar is fairly close you yours....77US cents

rovement

over the past year. We buy gasoline here that is extracted and refined right
within the province, but that 'commodity' aspect,
linked to world market prices, means that prices move instantly
w. big fluctuations such as Katrina caused. But our province is rich!

Martin, re-thinking your previous response makes me consider whether maybe
my "emotional" attachment to Paris is getting in the way of good common s
