>Aaron has a point... reduce the disc cache in the software  
first, then re-start Paris. Take 16 sizeable audio files  
and start them around the 5 minute mark on the playing  
feild, then start playing from say the 3 minute mark. Watch  
the disc indicator on your machine to see when it starts to  
access the drive heavily. With a low disc cache, it might

even choke when it gets to the point of loading the audio into ram.

en massive problems with it as far as streaming audio is concerned. If you are only using it for remote control protocol it should be fine. A better choice (albeit more money) would be either an 02R/96 or a DM1000 and an RME

HDSP9652... totally solid combination there.

Cheers,

David.
