-----=_NextPart_000_0147_01C7C308.9EE76CF0--Tom, can't answer that for sure. I built my system one component at a time from a bundle 3, being carefule and methodical along the way, and ghosting. So I would say do it a step at a time. But there's also a gut feeling that it may be good to have everything hooked up when you reinstall the Paris app, and let it see everything. How's that for non-commital? (pay no attention to my speleng).
