---=_linux48d80cea--I've had several inquiries asking if I would part-out the stuff I have available.
Sure, I'll take offers but I would like to keep the input cards and the ADAT
in the MEC for now.

cleanandsobershow [a] gmail.comHi,

My name is Andrew Longhurst. I used to work for Emu Ensoniq and have various
Paris goodies available for sale. These include:

2 x EDS1000 cards, PARIS Pro MEC (Blue), Paris MEC (Black,) Control 16 (Blue),
2 x original Control 16s(Black and tatty - perfect for spares or to make
one fully working from the two), 2 x EDS A81 Pro 8 channel inputs for MEC
(Blue), 2 x EDS A81 8 channel inputs for MEC (Black), 2 x EDS A80 Pro 8
channel outputs (Blue), 2 x EDS A80 8 channel outputs (Black), 2 x AD1 Pro
ADAT I/O cards (Blue, 1 x AD1 ADAT I/O card (Black), and 1 x Ensoniq skunkworks
SMPTE Card (EDS STi01 - Black)

I am based in the UK and am open to offers - this is the first time I have
put these up for sale and I am offering them here first before looking at
e-bay. FYI this is the kit I used to demo with whilst I was the International
Product Manager for Emu-Ensoniq.

In the first instance, please email me if you are interested in any of this.

Kind regards

Andrew

All cables and connectors.

The blue Pro system is in perfect, unmarked condition.

The black original MEC system is a bit tatty but works well.

If interested, I'm open to offers. Please email ajl@theartofmix.com or call me in the UK on +44 1453 751829

Best regards

AndrewHey Andy,

It's Kerr, didn't know you still had all yer Paris bits!

I'll get you a private mail and see if there's some stuff I can take off you!

cheers

Hi,
Does this work on a Gigabyte K8NS Ultra 939 ?
It has a 4200+ already , will this make any difference ?

hi todd-
just need one of the EDS 1000 cards--- how
much?
sincerely,
harryHey Deej, was this the CPU you were running on the Gigabyte GA-K8NS mobo for
your Paris rig ? Is it a dual core?
Thanks

Hi Rob,

Nope. this is an AMD64 dual core chip. It won't work on a 939 mobo.

Hi guys,
I have for sale an extra 8-in and 8-out card that are just not totally fitting
into my current setup. I can part with these with or without a spare MEC
that I also have. Please email me an offer for any or all of these extra
parts. They are in good condition and I'd love to see them find a new more
productive home.

I need a C16 in working condition.
Anyone??

jensHere's what I have still available:

(2) Control-16's (one black, one blue)
(2) EDS-1000 cards

Write for more info...thanks, Mike.

Anyway,here's what I've got:

4-EDS-1000

3-MEC

1-Interface 442

2-ADAT card

3-8 Input card

2-8 Output card

4-C-16

If your interested in anything let me know.I'm checking pricing on this stuff too to get a better idea.

Thanks,

damper on my sax playing, but I managed a work around with the synthophone,
a sax midi controllor and I took up the steel drums. Having gobs of fun with

EDS, it's been a while.

Thanks for the direct email addy, makes communicating that much easier for me as I really don't like gmail.com

Right now I'm deciding how deep into PT I want to go. I presently have a Paris rig and a Nuendo/Cubase rig and I'm looking to get into PT but am thinking I might have to move up to the m-audio profire lightbridge as my interface because I fly tracks between my two computers all the timeHow the fuck did this get here?

This is the second time I've sent an email that ended up on the NG - weird

with extreme prejudice" a long time ago.

Against my better judgement I'd made the mistake of giving my "friends
and family" rate to a client who was neither - just an old acquaintance
with a hard luck story (to make it even more "doh" - one I'd even heard
rumours about).

After an astonishingly abusive, out-of-the-blue email I received from
them about scheduling (I forwarded it to my colleagues, who said
"WTF???"), I'd sent the client this reply: "the data CDs of your
sessions are in a black plastic garbage bag out on my lawn underneath
the studio window. I'd come get them soon if I were you; it looks like
it's going to rain".

They sent a cab.

It's essentially the 6 x channel unit he sells here <http://www.forsselltech.com/jmp6.shtml> with a brushed aluminum faceplate. The way the pots and buttons are laid out on this unit, it will not accept the new faceplate. One channel is a bit scratchy and I'm going to unrack it and give it a good cleaning. I talked to Fred about this a while back and if there is an issue with it that I can't deal with, I will be sending it to him for a good going over and a clean bill of health before I put it on the market. I will personally guarantee this unit to be free of any issues and sonically wonderful when the buyer receives it. The reason I'm selling this is because I need some pres with a bit different color and feature set for tracking drums. I'm going to be looking at options along the lines of RND Porticos, API 3124, a UA 4110 or delve into the lunchbox money pit.

I'm thinking \$2000.00 for six channels of truly hi fi wonderfulness or I would talk trade plus/minus \$\$ for some of the products shown above.

I'll get some pics up here over the weekend once I've got it unracked. It's truly a work of art under the bonnet.

I know I'll be kicking myself for selling this.Ok! You are so busted! Moving to PT now? TRAITOR!!!!!! lol.

Hey Neil,

I've changed my mind. It's not for sale. I've decided against the Portico
as well. I'm just going to get myself a 3124.

I haven't been doing as much acoustic instrument tracking as I normally do around here, but I know that's going to be happening again in a big way in the next few months and I'll be kicking myself for selling this.

;)Hi Guys,

Well, it's been over a year since I put a rig back together, but....
despite all the good work going on, I'm just not using it that much (lack of time more than anything!)

So, up for sale is:

EDS1000	(\$150 / 120 euro)
MEC + Cable	(\$75 / 60 euro)
C16	(\$75 / 60 euro)
ADAT Mods x 2	(\$150 / 120 euro each)
8 In Mods x 2	(\$150 / 120 euro each)
8 out Mod x 1	(\$150 / 120 euro)

These units are all Blue versions, all in immaculate cond. (pics if necessary) and have had very little use (I had them whilst at EMU in the UK and spent most of their life packaged and unused).

I'm based in the UK, so shipping will have to be investigated for each item,

shoot me a mail with any interest to one.ninehundred@virgin.net

thanks

Trust me, nobody's moving anywhere.

PT would be in a supporting role just like Reaper, Nuendo, Cubase and SawStudio.

Actually Saw's just a PITA because it won't lock to Paris so it doesn't gets used and won't until the moron who builds it set up a sync as slave mode which of course will never happen because why would anyone use SAW in a supporting role

Fuck'em

heheheStill have two C-16 control surfaces available. The EDS-1000 cards just went

---=_linux493dd561--Hi,

I pushed the button too quick !

I have a EDS-500 card so I need the add-on card that gets the effects section
so I can interconnect other EDS cards.

Let me know if you have one for sale.

Regards,

Dimitrios

IIRC, Brian T and John Macy both have these. The following is for sale, if anybody is interested. Contact me to discuss pricing as I'm keen to sell. I'd prefer an Australian sale, although I'm a little flexible. where applicable items are 240V.

Paris parts (condition unknown as system wasn't working):

2 x EDS cards

2 x C16's

1 x MEC

1 x 442

1 x IF-2

1 x 8 channel analog in

2 x Akai MB76 Automated MIDI patch bays (1 x 110V and 1 x 240 V)

Event 20/20Bas Monitors (Can be converted to 110/120V)

1 SM-Pro 8 Channel 19inch preamp

1 x Alesis Quadraverb

2 x ASR-10's in varying condition

1 x ART Tube MP Valve Preamp

1 x Zoom 4 channel Recorder

1 x Road Ready 88 key keyboard road case

1 x Juno-60 with road case

Cheers,

Kim. Sorry, my mistake. Email to hiddensounds@gmail.com please.

Thanks,

Kim.

I'm really not mixing into any FX on my 2 bus these days. I'm working with a mastering engineer and letting him handle these things.

<http://billrobertsaudio.com/mastering.html>

He's got stuff (and ears) that I can only dream of and so I'm getting my

mixes right and ftp'ing them to him with peak levels running around -3dB
on the mix bus. He takes it from there.C-16 Mint condition- \$85.00 plus shipping
C-16 Excellent condition- \$75.00 plus shipping

8-input card Excellent condition- \$75.00 plus shipping

MEC Mint condition- \$75.00 plus shipping

IF-2 interfaces (2) Excellent condition- \$20.00 each.

All items are black in color. PayPal accepted, email if interested.

Thanks,

TommySorry guys, I was doing some cutting and pasting in creating the ad and in
doing so listed an incorrect price for the 8-in card.

I meant to price it at \$150.00 instead of \$75.00.

Thanks,

TommyHey Tommy,

You're not leaving Paris, are you?

James,

Paris wise, I was planning to sell it, however it looks as if nobody wants to buy it anyhow. I decided it isn't the best way for me to work, however I'm starting to rethink that. In many ways I work better by just using my GNX-4, however it probably depends what my goal is. If songwriting output is my priority the GNX-4 is certainly best, however if quality of performance and recording is my priority Paris works better for me. My current living arrangements don't really allow me to use Paris anywhere close to it's full extent however, and I think I'm probably better to focus on songwriting and composition than on production, nailing a final performance and getting the

perfect mix of it, which is where Paris comes in.

I'm not sure how to answer the "What's going on..." bit at the moment. It's a bit complicated.

Cheers,
Kim.

Well, that depends how you look at it I guess. I have decided to sell my beloved Kurzweil KSP 8. I am including a 64 MB Smart

The arrow keys on the front panel show some wear but all in all it's in very

\$1350.00 shipped (US). Email if interested. PayPal accepted. Credit cards ok with 3% surcharge.

Thanks,

TommyHey Kim, we all love you man! I hope life starts treating you better and what ever is going on, it all clears up. Life can be a road of hard knocks at times, we just have to tuff it out. I'm personally going through some tuff life changing events, so I know how things can be. We've got to hang in there kid!

We appreciate you keeping the NG going all these years. I hope you can keep you paris rig, get it going again and make some great music with in the near future.

I've bought some gear in the last year that I've never even used, so it's
got to go.

M-Audio ProFire Lightbridge with ProTools 7.2.x and 7.3.x, I'm asking \$550.00
for both. I'm told 7.2.x will record and playback 32 tracks. I believe
the PT 8 upgrade is \$149.00 or less.

http://www.m-audio.com/products/en_us/ProFireLightbridge.htm I

Tascam DM-24 24bit 96Khz Digital Mixer, I'm asking \$725.00, It is my opinion

that it needs a new LCD screen the cost from Tascam last I checked was \$171.00. it's easy to replace. I also have two Adat cards I'm asking \$150 each and I have the hard to find FireWire card, the FW card gives you 24 ch. I/O, I'm asking \$450.00.

<http://tascam.com/products/dm-24.html>

Behringer MX 9000 Mixer, this is the one with the full meter bridge, this mixer was used on one project and is basically brand new, it's mint, not a scratch, I'm asking \$875.00.

Here's some info: <http://www.zzounds.com/item--BEHMX9000>

excelsm@hotmail.com Anyone in Canada looking to part with an ADAT Card?

email me: tedgerber@rogers.com

Ted I am going to upgrade to Cubase 5 which has the features that I needed when I purchased Melodyne. I've got the full version here which includes the plugin.

I purchased it last year from Musicians Friend:

<http://pro-audio.musiciansfriend.com/product/Celemony-Melodyne-Studio-3?sku=705720>

Just the plugin costs \$249.00

<http://www.musiciansfriend.com/navigation?q=melodyne+plugin&st=>

I believe my purchase date was in May of 2008 which would make this eligible for a free upgrade to the soon-to-be-released Melodyne Editor with the DNA functionality. I'm waiting for confirmation of this. If I'm not eligible for the free upgrade to Editor, it will be another \$149.00.

You do know that you can actually use Melodyne just like you would a second DAW, don't you? It is multitrack capable and if you've got something like an RME HDSP 9652 running on a slave DAW, you could sync this to Paris ADAT, fly whatever tracks you wanted to process over LAN to your slave DAW running Melodyne, and then lightpipe them back to a Paris channel while being processed in real time.

this is one of the most unbelievable audio programs I've ever seen. I just don't need all of it's functionality for what I do here. the new Cubase upgrade will likely do what I need. It's been a while since I used Paris so I don't know what it would take to use the Melodyne plugin, but it's VST, so I would

imagine it would work with whatever wrapper you are using as long as you're running Win XP.

\$350.00 for the whole shootin' match. I've got the original box, hard copy manual, etc. and I'll cover shipping to the lower 48 as well as take care of the license transfer.

DeejI'm interested - shoot me an email at
