

hardware assembly components were missing. It would have cost me more in =
time that it was worth to box it back up and ship it back so I redrilled =
it and went to Home Depot because I needed to finish this project, but =
I'm pissed off and would never buy another one of these. It's a good =
design once it's properly assembled though and I could put one together =
like this quick and for about \$20.00 with just a little more effort than =
I spent getting this one up to speed.
