with Matrox video cards. Erling has had good luck with this mobo. I am still using an ASUS A7V8X-LAN mobo with my Paris system with an AMD XP2800 CPU. It's the most stable Paris DAW I've ever built. Highly recommended here.

>It's a nice unit and pretty versatile as a bus comp. It can get a little
dirty on a full mix, and it does some wierd stuff on drum overheads. I
usually use it on the kick/snare/tom bus and add the OHs uncompressed. It's
also nice on a vocal bus if you're looking for some grunge. I generally use
the drawmer 1968 on the mix bus.

display model's
picture settings can be pretty screwed up. If you get up close to both the
DLP and LCD, you should see much less noticeable pixilation on the DLP.
That's been my experience anyway. Also, watch some action shots on both
units. Ther
