Yes, Seagate good... using loads of them here and relatively trouble
free. The just bought someone... Quantum I *think*. Hopefully they
don't take anything from the acquisition except market share!

After reading articles on this site: <http://www.storagereview.com/>

I felt very comfortable going with Seagate. In order to access the =
reliability data you have to jump through some small hoops, but I think =
its worth it. =20
