I'm a guitar player myself although I'm completely self taught and entirely undisciplined player. Now I just like to spend time in my studio recording my own stuff and whoever else I like. Don't have near enough time for it these days though.

T.

Welcome to the area. I'm originally from the suburbs of Chicago but moved here to go to Berklee in '75. I never returned.

.just when I

try to play them back in Wavelab to master. I ran the error check in wavelab and it tells me it is finding glitches...not overs as I usually have the Global fader below 0.3 on mixdown also.

Somehow this is happening as it is saving the mix....is it a hard drive problem????

No problems tracking though.

any other suggestions...please help!!!!
