So how is it that you're so up on this news?

LOS ANGELES (AP) - George Takei, best known for his role as Mr. =
Sulu in "Star

Trek," came out as homosexual in the current issue of a magazine =
covering

the Los Angeles gay and lesbian community. Takei told The =
Associated Press

on Thursday that his new onstage role as psychologist Martin =
Dysart in "Equus,"

helped inspire him to publicly discuss his sexuality.

Takei described the character as a "very contained but =
turbulently frustrated

man." The play opened Wednesday at the David Henry Hwang Theater =
in Los Angeles,

the same day that Frontiers magazine featured a story on Takei's =
coming out.

The current social and political climate also motivated Takei's =
disclosure,

he said.

"The world has changed from when I was a young teen feeling =
ashamed for being

gay," he said. "The issue of gay marriage is now a political =
issue. That

would have been unthinkable when I was young."

The 68-year-old actor said he and his partner, Brad Altman, have =
been together

for 18 years.

Takei, a Japanese-American who lived in a U.S. internment camp =
from age 4

to 8, said he grew up feeling ashamed of his ethnicity and =
sexuality. He

likened prejudice against gays to racial segregation.

"It's against basic decency and what American values stand for," =
he said.

Takei joined the "Star Trek" cast in 1973 as Hikaru Sulu, a =
character he

played for three seasons on television and in six subsequent =
films. He received

a star on the Hollywood Walk of Fame in 1986.

A community activist, Takei ran for the Los Angeles City Council =
in 1973.

He serves on the advisory committee of the California Civil =
Liberties Public

Education Program and is chairman of East West Players, the =
theater company

producing "Equus."=20
