If anybody has any of this "obsolete" stuff lying about waiting to be thrown away, please let me know as perhaps it's not as useless as it appears. ;o)

Cheers,

Kim. The compatibility list is here:

http://www.chickensys.com/hd_compt.html

Are they seeing the writing on the wall with web competition?

Are they nervous about the lawsuit?

Are they wanting to cash in?

Surprising stuff...

DC"DC" <dc@spammersinGC.com> wrote:

I had heard through the grapevine (and you know how THAT can be, so take this with a mine of salt) that one of the main guys/owners is in poor health - that may have something to do with it if it's true.

NeilNeil, I have Voxformer but I am having "dropouts" on vocals in PARIS. I have tried disabling most all of the stuff in the plug, i.e., compressors, gate, presence, etc., turning down input gain, but still the same thing and not always in the same place. It sounds like they're being gated off at random times, may'be twice during the song for a real short period. Tried it on an instrument on another channel with same result. Any ideas?

Thanks, Edna
