Deej, if your system insists on being stable, what're we gonna talk
about around here? ;^) Glad the Pulsar is working out!

In my neck o' the woods, I'm still waiting for the NI Komplete 4 update.
It's coming on the slow boat from Germany - should finally be here this
week. Hopefully it won't do anything to rock the boat, Logic Pro has
been very reliable since the last update.

Cheers,
-Jamie

the project running at 80% CPU and the UAD-1's running at 90% DSP usage?
That would definitely be the acid test, wouldn't it? Since I don't record
in Cubase, I haven't tried this. I'll give it a try today.

;o)

>Hey Dedric,

I acually planned to use the Dreamm(contellation)XTII set up as my primary
mixer/recorder/editor.

I did not plan on using other DAWs as my primary, only for the occassional
use like Pro Tools /Nuendo. But, I was told by fairlight that they will have
a HUI layer very soon, and hey are working with steinberg about the posibilliies
of the use of CC1.

Also, they have the sx-48 i/o unit which goes up to 192 sample rate and provides
48 in 48 outs .And multiple units can be stacked .. The CC1 already has a
plethora of Scope II dsp plugins to offer, plus you can use VST plugins..

That's more than enough..

Dedric Terry <dterry@keyofd.net> wrote:
