(primary). He wasn't that surprised that the  
IDE2 didn't have quite the capability as the IDE1.

I'm trying to pick up a Asus A7V8X-X board and try that out. Seems to get  
good reviews around here for a Paris only system.

Thanks,

Rich

What would you use to partition the HD, Partition Magic?

However, if I paid for 200 or 300 GB, then I want to be able to use it all.
