Any relief program under any president would be overwhelmed by this. (and
BTW, I can't stand Bush)
New Orleans is a geographical and logistical nightmare in any scenario. Three
main highways access it, two are down.
Large population of poor folks, most of who happen to be black, making it
all too easy for commentators to play the race card.
Lots of addicts who didn't leave and decided to play "Escape From New York."
Hell, where's Snake Pliskin when we need him?

Anyway, none of this is constructive....

gotten laid in New Orleans
more than you have.

nanner nanner nanner!

;0)I would appreciate it dude if you could not use profanity to insult NG participants,
especially in the subject line. I can understand getting worked up and all,
and I think it's good to be passionate about your views, but I think we need

to show some respect and keep things civil.

Where possible I'd also prefer we kept political stuff on the General group.
I understand topics can drift though...

Cheers,
Kim.

early on, but it's
gone way beyond that.

Calling forum participants names, calling anyone a racist, and profanity are completely useless. I really don't care how much you hate any given president, some of the stuff that has been posted here is just slanderous mudslinging. IMHO, that removes any credibility you have in an otherwise respectful debate. If you have to slam people and align yourself with an rather poorly outspoken, ill-informed grandstanding rapper to make your point, you are probably better off keeping your opinions to yourself. None of this serves any constructive purpose.

Respect others, or no one will want to respect you.

Regards,
DedricNo, you replied with hate. Go back, reread your posts.

My Shezero drivers show up under System Devices not Sound,Video and Game =

on XP. Is this normal??

My Ensoniq Paris MIDI driver does show up under Sound,Video and Game =

Everything seems to be working right accept the external inserts.

Says he's been threatened and is truly paranoid about it. I've heard other stories like this as well.

WP Cheney have documented very well how much oil America are needing in the coming years in documents from the White House. Hope some American wish and want to find out about these papers to serve the truth for you. I'm not sure if it was 30 or 50 % more oil America will need each year in the coming year. I think it was 50 % I heard about in the documentation yesterday, documentations that I think isn't political correct to show up in todays America with Bush and Cheney with the power. What's happening in West Africa now, where there are oil, was showing up well documented in the program without setting any fingers at all on morality problems, just that Africans too wish to be rich if there's oil to find and sell, if it's so are China or America that wants to control the oil where it is.

So please Don, don't serve that people are liers if you don't wish to know what the truth can be at all.
