ppjI'm going to be tracking some Roland electronic drums with the intention of replacing some or all of the sounds with samples via Drumagog. How much CPU does this app use per track?

Thankstry this please

http://people.musc.edu/~bercikj/all_presets.ppjForgive my ignorance, but I have never attempted this.

I see on the Inserts on the Global Master there is an EXTERNAL option. Yet when I look in the Patch Bay I see no L&R on the INSERT BLOCK.
How is a loop formed with an external FX on the Global Master?

That works!
thanks!Brandon,

On the inserts for your first submix (usually Submix A)there should be a left and right i/o. Route those from and to your interface (442,MEC, etc.) and that will function as your external effects loop. Not in front of my system at present, but I believ

days before the storm hit but she apparently didn't request them. She has to do her job before Bush can do his. It's the way the law is written. If Bush had federalized Louisiana before the storm hit in violation of federal law you and every other Bush hater in the world would be sitting on the fence right now criticizing him for spending so much taxpayer money on an illegal operation that was just a coverup for violating human rights or some other partisan leftist crap.

More fallacy. The fed supercedes the states when it comes to emergency management, NO MATTER WHAT.

Did the tsunami victims fill out paperwork before the gov stepped in? Did Iraq fill out paperwork requesting the troops before the gov stepped in?

Partisan crap? Check yourself. When

> you pull Howard Dean out of your ass, really you're just exposing your OWN

When you sound like Howard Dean, you invite the comaprison.....and you sound *exactly like Howard DEan. I don't give shit what label you give yourself, it's your actions that speak for themselves and you're living in his camp dude. If you want to hate Bush, fine. Why not try to look at both sides rather than letting left wing interest groups do your tinkering for you?
