Hey Tyrone,
I bought Mogami and wired a 396 point (balanced and normalised
between rack units to achieve mic line in -- mic pre in -- paris in) =
myself.
Of course they can be inserted to grab choice compressors. No punch =
block.

Great sound and reduced my noise floor. =20

I don't recommend you do it yourself. I got my share of toxins during =
that=20
three week period. I think it was worth it. But I haven't been =
thinking straight=20
since then . . .
Tom

"EK Sound" <askme@nospam.com> wrote in message =
