issues I was having awhile back that you helped me on.Just like
you I wasn't hearing much,but the waveforms looked a little
crazy;don't think I was getting too many errors though.

Try pulling down the global submix faders like someone said.That
helped my situation.

No Limit ...no lookahead...Back 1ms and forward 78 samples

" " 1ms lookahead....Back 1ms and forward 30 samples

" " 25ms lookahead....Back 27ms(25+1+1) and forward 78 samples

I don't really go beyond 5 ms for lookahead, except for NoLimit, where I usually use 25 ms lookahead.

I do know that nudging a track 7x1ms is NOT the same as 5+1+1 in Paris.

I forgot what the sample diff is. I just have combinations logged that work for me and keep them as notes within the sampleslide presets.
