ry concern you have sounds like with the FX. The 2 =

SDISCS=20

are cut up into two full "pies" of 1/4 slice each, much like Paris =

FX.=20

Also, you can set it up to have seamless patch changes by using one pie =

for each=20

preset and then set the xfade times. It's the best thing I've seen out =

there at=20

this trick, ever. You can use two SDICS at the same time to run =

massive FX=20

alogs, but you lose the seamless that way. </DIV>
