-----=_NextPart_000_0119_01C8244F.96DC5EA0--Dear Tom,
Only your email bounces back ALL my emails to you.
There might be one from twenty passing thru but that's it.
No other email bounces back.
The email provider is the national Greek provider so there is no way they
have done this wrong.
I guess your provider sees my emails as scam but thats funny !
Regards,
Dimitrios
