can happen is adults fawning over them and praising them to the sky and comparing them to the greats, and getting them record deals. Yet this is usually what happens. When it does, the prodigy disappears and is never heard from again.

In classical, if you have a great teacher, they keep your nose to the wheel, and let you know that you have along way to go. The parents will be smart, and reserved with their praise and exposure of the child to the public.

Then you can end up with another Mozart, but it is rare today; fame is too much of a drug to most people.

I've seen these kids end up featured soloists with major symphonies and I've seen them disappear. It's all in the parents and the teachers.

DCWhat I was getting at was that if you do a lot of file processing
