retested the entire Paris system and it works great!
The chords are a bit beat. I had opened the controller a few years back and didn't get it %100 aligned, but it works great! Once again, you may need a new chord, but its a standard RJ 45 cable, I believe. This is a full functioning Paris Bundle II for the price of an EDS 1000 card. Don't miss out!!!

Here is what I have left;

(1) Paris Mec \$200
(1) Paris In \$300
(1) Paris In \$300
(1) Paris c-16 SOLD (pending)
(1) Paris Out SOLD
(1) Paris EDS 1000 card SOLD
(1) Paris Video DVD SOLD

All of this gear is in very good condition, very clean and only used in my smoke and dust free studio. This system is in PERFECT working condition.

I'll cover shipping via UPS (inside US only).

Thanks,
Steve Helm
