On PC's with a C-16 you need to limit both the EDS driver and Paris to 1 CPU.
The C-16 will lock and stop functioning till you reboot the machine.

but

Hey guys, it's been quite a while since I posted about my dear friend and colleague Will Downing. Late 2006 while touring, Will acquired an auto immune disorder called Polymyositis. This disease is completely debilitating to his ability to walk. in fact, he spent most of 2007 confined to a hospital bed.

I did share that I helped him finish his latest CD (After Tonight) from the hospital bed and wheel chair.

After a very long and scary ordeal, Will is once again walking and starting to do some tour dates no less. Over the last couple of weeks we did the Berkley Jazz Fest in Oakland, Ca and the Greek Theater in LA. We shared the stage with Sheila E and the entire Escovedo family (Pete included), Kenny G, Lala Hathaway, Najee, etc.

Though using a cane on occasion, Will did an incredible job and it is a true testament to his will and fortitude that he is starting to make it back. We had a great surprise in LA as Stevie Wonder brought him to the stage...now that's what I call a comeback! I included a couple of pics from the shows.
