the stage boxes, I will split those off as they are generic and all locks are intact.

I took care of my system.

I have two control surfaces, but some buttons are jammed. I may be able to fix that before the sale. Otherwise, omit from the deal if you don't need them. I am flexible on that.

I look forward to your interest.

I am in Ventura, CA (Between LA and Santa Barbara)

Just thought I'd give this one a nudge still keeping an eye out for an ADAT card if anyone's got one to spare. It looks like I missed this somehow, Ron. What do you have in our system?

All the best,

Mike It looks like there is one on ebay right now.
