PCIx slots for existing hardware.  
On-board video is actually preferred in this instance.

Thanks for any recommendations!

David.Hey Lamont - no I don't plan on vacating - just thought I would give Paris users the cordial option to voice their opinions. Compared the Nuendo forum this NG is an island resort spa. ;-)

I agree - a very insightful and helpful forum - lots of great people and info here.

Regards,  
Dedric

>Hi Rich,

They are completing work on a 1010 PCI crd for the 1616(M). However, you can get a PCI(PCMIA) card converter card.

Check here for the card:

<http://www.supergooddeal.com/ProductDetails.asp?ProductCode= SD-PCI-PCM&Click=17583>
