I'm not sure about the DM, but the 74LS series chip is pretty common TTL =
logic gate as I recall. Try getting specs at national semiconductor.=20
Have you looked at the usual suspects yet?

Radio Shack

Mouser

Digikey

MCM Electronics

Jameco

Newark

ECG

AA

"Tom Bruhl" <arpeggio@comcast.net> wrote in message =
news:470417bf\$1@linux...

Or does anyone have good companies that may stock
these older guys?

The one I'm looking for reads:

fP94AD

DM74LS =20

244WM

The results I've gotten so far aren't perfect matches.

I know it's unlikely but it's worth a try.

Thanks for anything you can add.

Tom
