DJ,
Maybe you want one of those EMU boxes?
I think they do all or most of what you'd need.
I don't own one so I'm not sure.

Did a few shots of me "sound checking" and playing but most of it will be discussions with the AE at the board discussing the reasons behind mic choice, placement and routing.

Not sure when it will be up but I'll keep you informed

How much time have you spent looking for negativity in the Quran? How much
time have you spent looking for inspiration? As I told an evangelical
Christian friend of mine, I think it's not about whether to believe that the
Bible is the Word of God, it's whether to believe that the Bible is the ONLY
Word of God...

[shrug] I don't get that impression from him myself. He seems to hate your
attitude, your actions, and your words, and those of other people like you.
I don't think that includes all Christianity... (Heehee, have you ever seen
that bumper sticker that says, "Jesus, Save Me From Your Followers!" ? Can
you imagine why anyone would feel that way?)

Even if you are wrong? So you mean it might just be your opinion about your perception of reality after all? If there is a chance that you are wrong, does that mean there is a chance Thad is right?

Whoops! You selectively quoted. I said many atheists are modernists and believe they are objectively correct.
