Hey guys thanks for the responses, card is sold!

Carlosanyone have any?

thanks.

jLI can not se You email ?!?!?

Cheers

MaxAs stated above

Looking for 2 x ADAT cards for Paris (black)
1 x 8 out card for Paris (black)

I am located in Serbia , so I would prefer something from EU , but Canada is also fine , because I have a friend there that can do the purchase :)

Thaks all !!!!

Cheers

MaxHi,
I have two adat cards for 300 E both.
Located in Greece.
It will take around 10 days to be able to have access to my card because
I am on a business trip.
Regards,
Dimitrios

EDS-1000 card (very clean) \$165.00

ADAT CARD \$165.00

ADAT CARD \$165.00

8-INPUT CARD \$165.00

8-INPUT CARD \$165.00

C-16 (mint) \$85.00

C-16 (excellent condition) \$75.00

MEC (very clean) \$60.00

MEC (very clean,fan not working)\$40.00

IF-2 \$15.00

IF-2 \$15.00

IF-2 \$15.00

Plus shipping. All items are black.

Thanks,

TommyHi Tommy,

Interested in your EDS 1000 card. In a bit of a rush unfortunately. tonyderricotte@yahoo.com

Thanks,

Tony D.EDS-1000: \$165

8-in: \$165

MEC: \$60

C-16: \$75

All in great shape. All black, except for the EDS card which is circuit-board green... :^)

415-613-1405 or email the above without the attempt to make it less spam friendly. I once was a regular member here, lo about 10 years ago. Ask around and you'll find you can trust me :)Vintage! PCI version of the UAD-1. \$150I have an extra EDS 1000 card for sale. Blackface and wroking perfectly.

It's not in use, just a spare. But I need money so I am cleaning house so to speak. I'd like to get \$200 for it. Email me at spappy122(at)yahoo.comWould really like to move these, particularly the MEC. No unreasonable offer refused. My definition of unreasonable applies! :-)

Would consider trades for a halfway decent subwoofer, headphones, certain mics (e.g., SM57), RNC, a brand new Mac Pro (hey how'd that slip in there?).

Thanks,
Stefan

>Still have a perfectly good EDS 1000 card for sale. My system is a Black Face Paris Pro rig and the card is simply a spare. I never got around to adding it as a second card although I would have liked to but I need to get rid of a few things to pay for other things... yadda yadda. Any reasonable offer considered. Hey folks, I have moved onto a firewire/reaper setup and using that exclusively in my home studio now and I am gonna start parting out with most of my Paris stuff.

First...

I have two Paris EDS1000 cards that I bought about a year ago off a guy from Colorado Springs. I purchased them for expansion of my one card system, but never done that and I never even opened the box. The guy said the cards were used, but worked perfect. But again, I never opened the box tho I trust him that they are fine... and I don't think the cables are in the box, so it is just the two cards.

I am open to offers, but would like to get \$300 for both cards (I paid way more than that). I am not really in need of too many studio components, but again, if something strikes my interest, offer away...

Before I send these to the ebay hustle, thought I give you folks an opportunity to snatch them up.

Email me at spankyfrost AT yahoo dot com

I have more things... but will post them separately as I prepare them for shipment. I do prefer USA Only shipment since overseas is such a hassle and I am very suburb (post office and UPS, etc. many many miles away). So unless there is a worth while offer, I'd rather keep the shipment to USA Only.

Thanks... ~ EdHey Ed, you wouldn't happen to have an IF 442 would you???Hey pete do you still have that 442?I do

Send me an email

Don

I only ask because as a Reaper user yourself there are going to be developments this year that are going to interest users of both (at least if I have anything to do with it). Unless you urgently need the cash from all of it, you might consider keeping a Bundle III held back and tucked away. Pro Tools branded 13 slot Magma PCI>PCI expansion chassis. -\$550.00. Includes round cable and both PCI host cards. This version will work with the Magma PCIe host card.

UAD-1-\$150.00

UAD-1-\$150.00

UAD-1-\$150.00

UAD-1-\$150.00 (Mackie version with LA-2A and 1176) - \$180.00

SSL Duende PCIe-\$500.00 (this is a like new card, with original packaging)

E-mail addy is animix@animas.net

Phone is 970-769-0488Hi, I can remember that at one point, some very entrepreneuring Paris users

had made an instructional DVD that was for sale on one of the related sites.

At this point in my Paris using career, I really wish that I would have bought one and I'm wondering if this is lying around with anyone who could supply me with a copy. I would be willing to pay a reasonable amount of money for this. For the past few years since I've jumped into this system, it has never ceased to be a challenge to install, upgrade, and use. That probably has more to do with me and my own technological shortcomings than with the system, and I have to say that been more than happy with everything that's come out of it. If anyone knows anyone with any decent experience

using Paris in the San Diego area, I'd love to know you and be able to have someone nearby to consort with and use as a knowledge resource. Any and all comments are appreciated.

Thanks,

DavidHi guys, I just put my old Lexi studio system up on ebay. This system, after a bit of a fuss to get installed under win98, will give you two sweet sounding Lexicon verbs.

<http://cgi.ebay.ca/ws/eBayISAPI.dll?ViewItem&item=170318137003>

Thanks

RobRob,

I have one of these that I've been mucking with and suspect a problem in either the card or I/O. I used it from 1998 until 2003 as a stand-alone reverb, like you describe. Then I retired it (unplugged it, took it out of the box etc) and when I put it back together, it was weirdness all around (clocking, hissing etc).

I'll buy yours if you know that it works and can help me set it up.

Sandy

>Hi guys,

I still have most of my rig to sell, all blue face, all in good condition:

EDS1000
C16
MEC
ADAT x 2
8 IN x 2

I also have the P4 1.6 I've been running it on if it's of interest to anyone. I'd like to sell as a package if possible (with or without computer). Pics are available.

I'm in the UK, so shipping will need to be taken into account, but with the £ crashing against the € and \$ it's probably not a bad time for selling / buying!

PM or reply here with offers,

thanks

Kerrl'm selling my Blue bundle 3 with the SMPTE card and a blackface 442. Shipping to USA only.

EDS 1000 \$150
Blue MEC with SMPTE card \$100
Blur C-16 \$50
Black 442 \$50

OBO

Contact me if interested at willtheweirdo@gmail.comHi Will,

I sent you an email - I'm interested in the 442 if it's still available.

StephenHi Will, Hey man , sent you an email about the 442,I see that Stephen did too. If your world is like mine, your very busy, and have not had time to respond. I'm still interested in the 442. If you like Stephen better than you like me (just kidding) and have already sold it, I would be interested in the MEC instead. Please let me know, cause these guys out here in Utah like to fill up 24 or 25 tracks with stuff, and then would love just "one more overdub". I could really use another set of inputs for card #2, thank you sir, John HoustonLooking for an EDS-1000 card.

Cheers,

Dennis(1) Furman HDS-16 and (4) HRM-16 with cables. Great system but I need to sell it right now because the cash is low.

\$2000 oboLooking for someone to sell me a 442 for a reasonable price.

Leave a post here, or directly at smp at smpppro dot com.

Thanks,

Stephenbump!

still got the bits.....nobody interested in making an offer?

thanks

KerrI'll pass the word around to some of my NONE Paris using friends. There has been some interest lately in this area.thanks John, much appreciated.

I don't mind selling as a whole, or splitting, and I'll be kind on postage too!

cheers

KerrI just found a bunch of old Paris manuals, Paris CD's and I think the Brian T CD is in there too. I'll have to look through all of this to see what's there but it's free to whoever wants it. You just pay shipping.

Dude, I want it! I'm in Hurricane, Utah. Let me know how much postage to send, and I'll get it to you asap. I'm leaving town for Idaho to do some shows, but I will be back on sunday, let me know! Thanx, JohnHey Stephan, there is a 442 on EBAY right now that has been listed incorrectly. The sellar is Joswagger, and he has a control 16 listed. If you look at "sellars other items" it will show up.John Houston wrote on Wed, 17 June 2009 07:57Dude, I want it! I'm in Hurricane, Utah. Let me know how much postage to send, and I'll get it to you asap. I'm leaving town for Idaho to do some shows, but I will be back on sunday, let me know! Thanx, John

Let me check and I'll get back to you on shipping. Shouldn't be much. If you're up around Sand Point Idaho, say hi to Fred Forssell for me.

Hey John,

Thanks for the info. It looks like he must have realized the problem and taken it down, because at 3:00 pm CST, there was no 442 listed

I'll keep an eye out to see if it gets relisted.

Thanks,

StephenI have one available...I'm in Canada

email dnafe at rogers dot com

Hi Don,

I just snet you an email - thanks so very much!!

StephenHey Don,

I tried sending an emial at the dot com address, but network solutions seem to have a problem with rodgers dot com addresses, so I'll try through my hotmail account.

Hopefully it works. If not I'll post again here.

Thanks again,

StephenHi Stephen - just curious, what do you guys use 442s for?

- kGotcha, thanks!

- KHey Kerry,

All I need is a basic I/O for my setup - MEC is just a bit too big for me. I presently do most of my stuff in Nuendo, and since I bought Mike's drivers, I'm getting the itch to use Paris more and more.

StephenMine came with the rig I bought..in fact I've never actually used it so I better check to see if it does

DonEDIT: SOLD

I got this PARIS system from my college's surplus. Unfortunately it did not come with the EDS-1000 card so I can't use it. It was fully functioning when purchased, was never used except

about twice by me, and only lost the EDS-1000 card when the school got new computers in our lab but forgot to give us the card back!

So instead I'd like to sell the whole thing piecemeal. I have the MEC Modular Expansion Chassis, the EDS - MEC Master board, two EDS Abit-24 ADC cards with 8 TRS inputs each, and the Control 16 board. That's all that's missing is the EDS-1000 card to get this system up and running (and cables for the EDS-1000) AND this package has two ADC cards. I am open to any offers, I'd like to get rid of this soon. I will sell pieces individually as well.

If you have a trade offer I'm game. Just let me know and I'll consider it.

As I can't connect it to a PC, I can't guarantee functionality but I saw it used two years ago and since then has been in storage.

I'll split shipping with the buyer. It is heavy of course - factor in the half of shipping for 35 pounds, from 31602, for the lot. Individual pieces will be shipped at cost, except the chassis I'll still split shipping.

I'll take Paypal ONLY.

Pics included: I took a card out to show it's condition.

PM or reply here with your questions or offers. If you'd like the whole lot I'm very open to offers. I am also very active on GearslutZ and have bought and sold there several times, if you want to look up my username there.

(hope you don't mind, I took the liberty of inserting your images inline so folks can see them more easily - moderator)Thanks!

Will consider all offers on this stuff. I'm willing to take below the typical prices I'm seeing on here. Also any trades will be considered, pro audio stuff preferred.anyone have any laying around?

maybe a mec?Now on ebay:

http://cgi.ebay.com/Ensoniq-Paris-MEC-w-2-Abit24-8-in-cards-Control-16_W0QQitemZ320389001552QQcmdZViewItemQQptZLH_DefaultDomain_0?hash=item4a98ac3150&_trksid=p3286.c0.m14&_trkparms=65:12|66:2|39:1|72:1234|240:1318|301:1|293:1|294:50

Will sell here for a flat \$400 + half of the actual shipping, Paypal only.Thought I would see if there is any interest in the Brian dvd (I have watched it about 20 times at this point and am ready to let it go).

Also, I have one of the Paris foot switch things that lets you punch in and out with your feet so you

can hold your guitar, or whatever, while you record.

Anyone dying for these items?

Also, I Want To Buy an 8-in card. Don't care about the color, so long as it works.

Thanks,

Phil

Yes, I'm very much interested in the foot pedal! I'll PM you.

There are two 8in cards in the rig posted by Corran on the 23rd - that's a decent price for 2 8ins plus a spare MEC and C16. I saw that post - unfortunately, I don't have the room or the desire to have the other stuff. I just want one 8-in. I just spent the last 6 months finding homes for my spare c16s, mecs, eds, etc...

I will watch for your PM.

Thanks.

philAh - the reason I thought of that ad is that near the top he says he'd like to sell it piecemeal, which is what you're asking. Have you tried contacting him? Hey everybody, I can't tell you the exact technologic terminology for these guys, but if you're experienced at hooking up multi-card systems, you'll get it. They are the cables that you use to hook the two PCI cards together in your tower. They are 2x 16 pin ribbon cables and 1x 10 pin ribbon cable. I can't find them anywhere within the time frame that is pushing 10 DAYS OR LESS to finish this project

SO IF YOU FEEL ME AND YOU HAVE SOME OF THESE BABYS HANGIN OUT PLEASE PLEASE PLEASE SELL THEM TO ME!!!! FAAAAAST!!!!!!

Thank you all very much>camCam, I hope you don't mind me chiming in here, but - folks, this is Cam, the son of Jim Drago who's given you all those wonderful PARIS skins. Hope someone can help out a PARIS brother with a deadline with a set of EDS interconnect cables, folks! oh, no, I missed that. I was under the impression he wanted to package it. I will mail him. Thanks. Reading comprehension and I aren't friends today.

These are incredibly easy to make. Don't buy them. All you need to do is get some IDE ribbon cables from an old hard drive. Then, just take a hack saw blade and carefully split them down to the appropriate number of pins. All 3 of my eds cards are connected with home made cables.

Kerry, if this info isn't in the Wiki, it should be. Also, maybe I can do a video tutorial of how to make them and hook them up and post it to Youtube with a Wiki link?

Let me know.

-PhilOh man, would you? That would be a great addition to our collection of hardware maintenance tips (e.g. AA's C16 tutorial). Yes, you're absolutely right, he could make those from

parts from Fry's in fifteen minutes if he knows exactly what components to get, they're dead easy to crimp with kitchen tools. Thanks for all of your help with Cameron Kerry, I appreciate it very much...JimA pleasure, Jim! Here's a crimping guide I found -

Brief Guide on How to crimp ribbon cables PHILIP PHILIP PHILIP... MY FRIEND. Thanks so much man, live saver to be for sure! YES... and again thank you Kerry for all your help...AND THANK YOU AHEAD OF TIME FOR WHEN I CALL YOU WITH FURTHER QUESTIONS...SOLID MAN!

GRATSI, cameronHi Phillip If I do this one end of the connector isn't locked, does that hurt anything. Thanks JimHi-

I don't think so, but I'm not sure what you mean by "locked." Like I said, all of my cables are homemade, and though it has been a while since I looked at them, I don't think any of them "lock" in to anything. Does the "real" EDS cable have some sort of clip that holds it in place? Is that what you asking about?

Like I said- I very simply chopped a few IDE cables in half with a hack saw. They look terrible, but work just fine. No locking.

-Phill'm guessing you mean one side of the connector's end not "clicking" while locking onto the ribbon?

It should go - you might try cautiously and judiciously muscling it just a tiny bit (gently) - you want to make certain that the "prongs" inside the connector end displace the insulation on the ribbon far enough to make a good solid connection with the conductors inside.

As far as installation of the finished cable, they don't lock onto the EDS card, it's just a snug pressure fit. Make *double sure* you don't have the pins offset by one when you install the ten pin cables.

Mind you - by now you've probably already got it installed and running HI Kerry it's Sat at 4PM our time. Just getting things together now. I'm sure we will have Q's for you. JimKerry I can't find my instructions for Mike's plugs do I just put the DII's in the effects folder. Hey Jim, I just turned the instructions into a PDF (I don't think Mike will mind, he'd be the first person to want you to get these happening). Here they are:

MA Multicore Driver Installation Instructions, V1.02 ReleaseD'oh. the PLUGS. Sorry - yes, there should be a pair of files for each plug; each pair goes in C:/WINDOWS/system32/Ensoniq/plugins Thanks Kerry, as far as I know we got everything working. I haven't heard otherwise from Cam. Thanks so much again...Jimpm'dHi Phil

did you get sorted with an 8in?

I have a blue one available if your still looking

thanks

KerrHey Phil, I would love the Brian DVD, how much you want for it? Now with free shipping for members here. Lots of interest but no purchase yet. Hey everyone, long time no see... Glad I

finally stumbled on Kerry's site! (I've been trying to reach the newsgroup from Doug's page to no avail.)

Anyway, I just moved to a new place, and have to split my recording and mixing to two different rooms. (We have an isolation booth in the house, but I can't mix anywhere nearby.) Since I only have one EDS and control interface at the moment, I have to physically move them from one location to the other to mix, which is a pain.

So I'd like to find another C16 Pro (I'll consider a regular C16, but I'd prefer the Pro since I'm used to the layout already), and another EDS card. Does anybody have extras around?

Thanks much!

MattLooks like Corran's rig is still for sale (I suspect the more "in demand" items this year ought to be EDS cards and ADAT MEC modules), and he did express a willingness to part it out in his first post. Welcome to the forums, glad you found us! Unfortunately, he doesn't have an EDS card with his, just the MEC and C16. If it doesn't sell as a whole, I may make an offer on the C16, but I'd really rather have another C16 Pro like I've got now.

And thanks, it's good to be back! I'm not sure if I am telling you something you don't already know, but the c-16 layouts are the same for the blue and black. They are printed differently, but the buttons have the same functions AFAIK.

So, if you're used to the layout of one, the other one will look different, but operate the same way under version 3 of Paris.

Someone please chime in if I am wrong on this...

-Phil

Ok, good to know. I haven't used my console in 2+ years, so I'm still finding myself looking at the labels constantly, but I'm sure that can be overcome.

BTW I do have a MEC ADAT module that I'd be willing to trade as part of the deal, if someone needs one.

Thanks guys! David - check the Main group, I am providing the disc free to anyone who wants it...

TedTTT

Will include shipping on all items except the MEC's to addresses in the continental US.

Paypal also accepted. Hi Kerr,

I just read your message you posted back in April...we were all much younger then!!!

I don't know if you still have any of that Paris stuff, I was looking around trying to find an input card for my MEC.

I rarely touch Paris I only use it occasionally for location recording.

I have to say it, that dinosaur sounds good...eh eh

All the best! I have a few items that were being kept as spares but will be just keeping one of each now.

(2) ADAT cards - \$150 each shipped to lower 48

(1) C16 (black)- \$50 plus actual shipping

(1) MEC (black)- \$50 plus actual shipping

Thanks

Matt Barber

615-886-8352

www.eightdayslater.com

www.sandboxproductions.comHi,

Any trade considered for input cards ?

I have a AT4033 Audio Technica mic

Yamaha MU50

Akai SG-01v

Regards,

DimitriosHi Kavide, check your pm box.

Hi Dimitrios,

what's the AT4033 you've got? I might be interetested in that. Is it the recent model or the older one? Were you thinking straight swap or cash involved?

thanks

KerrHi Matt - check my ad above...My RME 9632 (PCI) has now been replaced by a 9652 and so I'm now looking for a couple of ADAT cards to add to my PARIS rig. I'd take an ADAT card plus modest cash on your end, or two ADAT cards plus modest cash on mine. Drop me a line if this sounds interesting, and thanks!

(RME sold, thanks!)

- KI am a new user and have found myself in need of more play back tracking. is there anyone out there who knows where I can get another EDS 1000 card. also I am running mac os 9 and would like to find plug ins if possible

I am running the blue Paris pro with a mec unit, I have an 8 input card that is black but works fine so I don't think the colors matter much LOL

thanks in advance

Andrew Woollens

Copy Cat Studio

Greenville SC

myspace.com/copycatstudios Welcome aboard! Very cool, it's great to see new users nowadays.

Yeah, the blue/black thing is cosmetic only, there's zero effective difference except for the

silkscreening. Let us know how you get on!

- KI would like to find information on where I can get another EDS 1000 card. if anyone has any Ideas let me know or if you have one. and there are none on ebay already have been looking Might be a good time to point out that depending on how big your rush is, TheSoniq does still have them new in box for \$300.who is that and how do I get a hold of them?Sorry, I should have pointed it out - thesoniq is in the links in the top header. If I recall, the proprietor, The Nguyen, apparently bought out a bunch of EMU's stock when it died. He's got a good rep for PARIS parts and repairs.great!! I found it thanks again. Tommy,

Is all this still for sale (except the things marked sold)?

I am interested in a few parts.

email me if you would like..... bradleywreed@mac.com

Thanks.

-Bradley

Matt,

Is any of these extra PARIS parts still available?

Let me know.

bradleywreed@mac.com

Thanks.

-Bradley

Kerr,

Are the ADAT cards & Input cards still available? would you be willing to ship to the states?

Let me know if you are interested.

bradleywreed@mac.com

Thanks.

-BradleyHi folks. Time to start selling off my Paris gear since I moved to another format. I was keeping some stuff as a backup for older recordings, but most of them have been converted and I

don't need the components anymore. I'll try to sell them here first before I shovel them off to ebay auctions...

To start, I have a used EDS 1000 card that was my main card. I am asking \$165 plus s&h of \$10 (USPS Flat Rate). So the first \$175 gets it!

email me at edward dot zurick at gmail.com

I'll post more items as I remove them from the studio...SOLD--Saturday august 15th, 2008Hi,

I'm in the market for 1 ADAT expansion card. I'm in Australia.

Thanks,
Pete AlecHi Dimitrios,

Looks like I just missed your ebay auction

Do you still have an Adat card for sale?

Thanks,
Petedoes any one no where to get Paris plugins for mac OS 9? there must be some out there some where or at least copy's of them
anyone please help!! I assume you mean the Skunkworks pack that Chuck made available?
Doug Wellington's PARIS FAQs site's links give 404s, but they're accessible if you know where to look. Try here. I have gone to the Paris FAQ and all the links os9 specific are invalid and the link you posted for me to "try here" is a users manual for adat. I just want to find more software effects I can use than what come with the Paris. I see there is an autotune for PC and some EQ packs but the poor mac OS9 user gets hosed LOL Oops! My apologies, that was posted in haste. This link should work.Hi all,

Good to see you all still at it with PARIS. Just came upon this NG - wondered what happened to hiddensounds?

Anyhow, I have a bunch of gear for sale all in great shape

PM me if interested in any of it

Thanks, AlAI I tried to PM you but it said you weren't excepting PM's. So how bout you PM me...
JimJim, I'm not able to PM you either - tells me there is no user named Jim Drago[2]?????
Try me again - I think I fixed it on my end
If you can't get thru to me I'll post an email address

Thanks, AlWas away for a couple of days on vacation - PM issues? Weird, I'll check to see if there are any indicators of a problem on the admin end.Hi!

I spotted this on ebay:

<http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&Item=360168545883&Category=23790>

greetings

michasorry...been busy and out of the country a lot the last month...but yes they are still available.

Matt

www.eightdayslater.com

615-886-8352Hi all.

First topic on this forum.

Nice to see Paris is still alive.

So :

I'm in France and interested by a mec, with or without 8 ins/outs cards+c16.

Ideally would want mec+1x8in+1x8out+1xC16

Pm for offers.

Thks.

CyrilleThere are a couple on ebay right now!Hey Cyrille - I don't have anything to sell you, but I just wanted to say welcome to the forums!Hi

Thanks for welcoming me !

I use to check ebay, i'll go and see right now.

Thanks for the info.

br

Cyrille

Hi Cyrille

I've still got an 8 input card (blue face) left from my little stockpile.

I'll PM you with details

thanks

KerrHi!

I'm here in Finland far from you, but i'm still interested to buy one of those Paris Adat cards, is it somehow possible to send it to me, ...we can use Paypal maybe?!

Petteri Salmi

+358400665033

Heya Petteri - just wanted to say welcome to the Paris forums!

- KerryHi!

I'm from Finland and i'm interested in to know, what's the price of the whole Paris system, ...how much you ask?

Petteri SalmiHi,

Some of the rig has sold now, I have left:

2 x ADAT cards
8 input card
EDS1000

I'd thought about €500 for everything (including postage, insurance, etc, but I will take offers or am happy to split if you only need certain pieces

thanks

KerrI'm eyeing your ADAT cards covetously. I'll PM.

- KHi

Im looking for mostly blue but black is also ok paris parts

I can offer for trade

GSSL Clone bus compressor with SIDE CHAIN filter (that one use DBX 202c original vca used in original ssl desk)

WSW siemens PREAMP EQ modules from 1967 ... pure passive eq and Class A preamp all discrete

WSW Universal amp.. UA 811403.... BETTER THAN V676 from telefunken

EMT 257 Limiter!

...

PM me offers if you have anything from paris you dont need!!!!

DamirHi there!

Just looking if you have any:-)

Thanks !

MichaelHi Michael,

I have 2 blue face ADAT cards going, I'll PM you

thanks

KerrI have for sale my remaining Paris gear. I have downsized my recording needs and this is the last of my Paris gear.

EDS1000

C16
IF2
442

I'll sell the lot for 225.00 plus shipping.
If there are no takers for the bundle I'll consider selling separately.

I can also be contacted off list at:

d dot elks at verizon dot netI edited my post - that is an EDS1000Hi,
I am Dimitrios from Paris forum.
Would you consider any trade for the EDS1000 card ?
Regards,
Dimitrios

ps: AKG C535EB condenser micTrades are possible but I'm pretty good with mics at the moment.
I'm also open to just selling the EDS card.

DempseyLexicon LXP1

DimitriosMake offer...
2 X EDS1000(1xmaster/1xslave), 2 X C-16, MEC and 8 IN CARD.

C-16:s and MEC are black and in good condition.Only thing what's missing are the ribbon-link
cables between the cards.
I would like to sell the whole rig, but u can make offers if you're interested only in some of the
stuff.
Swapping for other studio/audio gear also possible.
I'm located in Helsinki Finland. Hey Aaro - here's someone in Finland that was looking for
PARIS gear...

http://kerrygalloway.com/ParisForums/index.php?t=msg&got o=104139&#msg_104139How
much do you want for the EDS Card? Hey

Interested in ADAT cards , if You are interested to send them to Serbia

Please contact me at maxproducent@yahoo.com

CheersHi,

check your PM box

thanks

KerrHey guys!

I am trying to sell the rest of my Paris stuff.

(2) EDS Cards - \$300 (will only sell together) w/connecting cables. I'll even throw in a purchased copy of the new drivers. Mike already said I can transfer the license.

(2) 8-IN MEC Cards (Black) - \$300

The shipping will be the flat rate box, which I think is \$9.50 anywhere in the USA. USA shipping only. I am not messing with overseas shipping, so please don't ask.

The bad news is... I can only take check by mail. I do not mess with evil paypal or any online greedy money service. Sorry, but I been burnt too many times by them. Interested. here is my email: darbyohara at hotmail dot com

I'll entertain any reasonable offers... I moved onto a firewire system and no longer need Paris. Thanks... ~ Ed

I have one Paris EDS 1000 card and one Paris EDS 1000x for sale. In great condition. Asking \$180 each. I can point you in the direction of my ebay feedback for peace of mind.

Thanks. Kinda looking for another C16 at a good price for my multi card setup, if you have one. mani1147athotmaildotcom

Thanks

Robmail me at:

tstimac02[at]yahoo[dot]com I have one EDS 1000 and one EDS 1000x in mint condition. I've lowered my asking price from \$175 to \$160 each. Can buy both, or just one. I can direct anyone to my ebay feedback if necessary. PM with any questions.

Thanks. pm me with your offer. New offer. Will let both go for \$300 total. PM with interest. Thanks. Hey All, I've got the last of my analog Paris cards up on ebay. Just do a search for Ensoniq Paris. It's all under user TCSTUDIOS.

You can PM me also if you are interested in anything and don't have an ebay account. I can also knock off the amount of the ebay final value fees if anyone wants to buy direct. I've got 2 8in's and 3 8 outs (one without faceplate), and that will be it.

All my other paris parts I'm keeping. I've got a 100% positive seller rating on ebay, and a few people around here know me (Kerry G. might vouch for me if you would like references).

I use all adat cards with paris now (8 of them!), so I'm selling these off to try and fund some plugin purchases this month (that damn Waves December plugin sale has got me hooked, and time is running out).

Cheers all and Merry Christmas or whatever you happen to celebrate!

TC Here's a link: 8 in - http://cgi.ebay.com/EMU-ENSONIQ-PARIS-8in-8-channel-A-D-Card-MEC-LA-ST-ONE_W0QQitemZ230417460343QQcmdZViewItemQQptZLH_DefaultDomain_0?hash=item35a5f36c77.

8 Out - http://cgi.ebay.com/EMU-ENSONIQ-PARIS-8out-8-OUT-D-A-Card-MEC-LAST-ONE_W0QQitemZ230417584115QQcmdZViewItemQQptZLH_DefaultDomain_0?hash=item35a5f54ff3

Click on "view other items" for a complete list. All reasonable offers considered.

Cheers,

TCOne 8 in left, the other one has sold. Sold an 8 out card, so just 2 outs left (one is missing silkscreened front, but will ship with a blank panel (black or blue).

Thanks to everyone for your interest! Just a quick update:

I've shipped a couple cards now to Europe. Shipping is \$52 USD per card to UK/Europe (small packet air, 7 day delivery). Of course I'll combine shipping on 2 or more cards if anyone is interested in more than one.

Cheers,

TCOnly one 8 in and one 8 out card left.. all other cards have sold. Thanks to my Eastern European and UK friends!

Happy New Year guys!Need adat card and will buy or trade for stuff.

I have mecs, in and out cards, c-16, edsx card. Also have other studio stuff. Nice home built 4 channel mic preamp. I have 4 of them I can let one go.

KurtThe first 8 outcards were \$10 cheaper.Well, there you go. Get your PARIS gear while the prices are still low Exactly! Those were the 2009 prices These go up in value as they get more rare - prices on "vintage" gear always go up

I mean come on, still under \$200 for 8 channels of 24 bit conversion? That's a bargain people!

I actually don't need to sell these now as I've got my Waves studio classics bundle and CLA bundle that I was raising \$ for while they had their December sale. However, I'll gladly give you the \$10 direct discount for Paris forum friends, just pm me if you're interested.

Also, speaking if which, if anyone is looking for Native plugins from Waves, etc. I highly recommend getting in contact with Paul aka DutchMuzik, (or Tony Belmont - plugindiscounts.com). These guys have the best prices around, and they are authorized dealers. (DutchMuzik has an especially fast turnaround time for ilok authorizations).

I have put these cards up on ebay. 2 days left in the auctions. Check the following links:

<http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=280445048714&ssPageName=STRK:MESELX:IT>

<http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=280445050540&ssPageName=STRK:MESELX:IT>

My last 8 out card is now up for auction with lower starting price.

<http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=230421896469>

Last out card I've got, this is it. Thanks for looking My last 8 in card is now up with a starting price of \$140.00.

<http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=230422344540>

Cheers,

TCAI gone

just curious - any chance you have a target price for the rig/parts?What do you want for the EDS card?

Is it the one with FX built in?

Thanks,

MikeEDS1000 cards are the ones with the FX built in, EDS500 are the bare card without FX, and EDS1000x cards are the ones that came with an included cable kit to interconnect cards (the cables can easily be made at home too).The title says it all. If you've got an 8 in for sale, please contact me. I'm considering buying a couple of 8 outs as well, if the price is right. Email: drew (at) reverendrecords (dot) com

To avoid spam...

(at) = @

(dot) = .

Thanks,

DrewHello all. I am selling my PARIS system and was wondering if i'll have more luck selling as a system or sellinng as individual components? i have a single black face MEC with card and cables with two 8-in and an ADAT card.

-johnnyPlease check out my ebay listing if you are interested. Thanks.

<http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=350313723331&ssPageName=STRK:MESELX:IT>

Item number: 350313723331

PARIS gear for sale

Thanks,
John
See PM !Would you consider selling the 8-in seperately?

Thanks,

DrewEbay auction ending 45 min!!for those of you who have access to a Cubase/Yamaha i am
interested in a MR816 - i would like to trade my PARIS system for that unit. i am willing to deal a
bit on price. please contact me if you are interested.

johnnybellino at hotmail.comsent you a pmSelling an EDS500 for \$75 shipped OBO. Card is in
excellent working condition. PM me for pics and i will take a few for you.

Thanks,

Jimmy

SoldLooking for an ADAT MEC Card. I'm in Canada, so a North American seller is preferred.

Cheers

Kris

PS: If anyone has an RME 9652 for sale I'm interested as well.
<http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=330408088691&ih=014&category=41784&ssPageName=WDVW&am p;rd=1>UPDATE:

G4 and Dual monitors setup sold...

May consider parting out the following:

Ensoniq Paris Blackface Rig & Hardware:

- (1) C16
- (1) EDS 1000
- (1) Mec Chassis
- (2) 8 in cards
- (1) 8 out
- (1) Ensoniq foot switch (for punching in)As said want to buy 1 or2 adat cards for PARIS .

I am located in Serbia Europe

CheersHi There - Nice to see the PARIS dudes still going strong.

I'm selling off my revered Paris rig. This ADAT card is the last of it. It's in excellent condition and comes with the original packaging and manual.

\$150 and shipping. Prefer to ship to continental US.

Thanks and best of luck,
Jon

I need an 8out card more than 8in but putting a feeler for both .. thxi've got an 8 in card.

parnell68@hotmail.comI have both roscoesrec@gmail.com

Thanks, RoscoeStill got these for sale

Paris Pro 3 Software-\$125
C16(i have 2)-\$75 for both shipped to your door
EDS1000 card-\$150 shipped to your door
442- Free with the EDS Card purchase

Shipping is included anywhere in the CONUS.

Thanks,

JimmyHi,
I have a Yamaha AW16-G to trade for with paris stuff...
Looking for EDS cards mainly and maybe analog input adat card too.
Any offer will be considered.

I have 176 ebay transactions all 100% positive only so to be trusted...

Regards,

Dimitrios[ATTENTION: This thread has been flagged due to a member complaint about PARIS equipment paid for but not received. The flag will be removed when the dispute is resolved. Please contact the forum administrator if you have purchased or attempted to purchase PARIS equipment from this thread - Admin]

Hello, after all these years I'm finally selling my PARIS rig.

Running PT HD nightly has my PARIS system collecting dust and I thought I might find the pieces good homes.

-Will Wilson

\$1200 for everything or:

5 EDS 1000 cards - \$150 each OBO
3 EDS cable sets - \$15 each OBO
1 Black MEC with cables - \$100 OBO
1 Blue MEC with cables - \$100 OBO
1 Black 442 - \$50 OBO
2 Blue SMPTE cards - \$75 OBO
2 Black 8 Out cards - \$175 each OBO
1 Blue C-16 with cable - \$75 OBO
1 Black C-16 with cable - \$75 OBO

Price includes shipping in the US.

US Postal MO for payment please.

email me:

willtheweirdo(at)gmail(dot)com Purchased New, set-up in a Mac G3 and plans didn't materialize.

All perfect condition, all packaging, instructions, Paris 3 software, etc. All Blueface.

MEC with (1) 8-in, (1) 8-out card.

ParisPro C16.

(1) EDS Card installed in G3 with dual HD storage (included in sale.)

All correct cables, etc.

Humidity controlled room.

Other than periodic turn-on, completely unused and mint.

Inquire if interested, thanks.

-Mike.

Hey there.....

I'm just wondering if you still have your ADAT card, and is it black faced?

Shoot me an email at bradleywreed - at - mac- dot - com.....thanks.

-B

Duh.....just saw the title.....but I still need to know if it is sold, or if it is available.

Let me know.....thanks.

-B\$1000 for everything or it goes to Ebay.

Last chance before Ebay.It breaks my heart to see this stuff going begging. We are not so very flush these days but if you'd sell 2 EDS cards for \$200 I might be interested. Email me at ganttmann at gmail dot com if you're interested.

Thanks,

GanttYou pay shipping costs.

Cables included with both. C16 has some minor scratches (cosmetic). Pictures on request.

-Brian1) Yamaha AW-16G

2) JLCoooper Datasync2

3) Line6 distorto pedal

4) Line6 ubermetal pedal

5) Korg P3 piano module + piano card !!

6) K47 Neumann !!NEW!! capsule !!

7) U47 type NEW UNIQUE (My patent !!) mic bottle empty inside, can include a chinese U47 type capsule, with spider holder, with working power supply, with case all NEW.

These were 6 prototypes I have orderd some years ago to build my Muse47 microphones.

I have build one which I am using since then in ALL of my vocal recordings.

Best output transformer for U47 clone (can;t remember exact type)

I can help with schematics if someone want to build a U47 clone

9) Telefunken EF12 tube

10) EF42 Telefunken tubes

Regards,

Dimitrios

Hi to all.

MY PROTOTYPE MIC IS NOT USING THIS EXACT HOUSING MADE PROFESSIONALLY WITH GREAT METAL FINISH AT FACTORY THAT'S WHY IN PICTURE SHOWS DEGRADATION FROM CHEAP MEATALLIZING. ANYWAY THAT WAS FOR MY PROTOTYPE.

Some couple of years ago I was about to start producing a nice U47 Telefunken clone mic.

I have ordered since then 8 unique bottles (made for me at China) using the unique "mUse47" logo.

The prototype was made to a great success which I am still using for 99% of all vocal recordings ! So I never found first the time secondly the technician needed for the final touches and left this project unfinished.

I now have here for sale or trade for Paris stuff (no Mecs neither C16's,no smpte cards)

1) A true NOS K47 Neumann capsule made in Germany shopped by a third party directly from the german factory. I actually bought back then two pieces one of which is in my prototype U47 mic.

2) The bottle (empty inside) only cables from the multipin adapter, the spider (great engineering throughout these pieces), a power supply that is working but delivers I think around 180V instead of the 105V needed for the U47 (I have a quick great tube stabilizer solution for 105V !!!) and a hard case with cable. All are new and I have around 4-5 pieces of these left.

3) Chinese U47 capsule (like Peluso ones which are Chinese no matter what is advertised !!)

4) Haufe Output transformer the best possible solution after some great research and the advice from a person working in Neuman Germany...

5) NOS EF12 tube

6) NOS EF42 tubes, UF42 tubes

EF42 for me is the best candidate because there can be found nowadays still, they are the glass version of EF14 without the microphonics !!! Yes original EF14's UF14's VF14's had this microphonics things except for the M version VF14's.

7) Schematics needed , special made PCB for me with my Neumann logo, for the inside of the mic !!!

So if someone interested let me know.

I have 176 all positive only transactions in ebay under the name ("musurgio") so you can trust me !!

Regards,

Dimitrios

PM me D - I have someone who's interested I'm interested in the body. Do these include grilles? What sort of connector?

Any pics? PM me.

Cheers

Kris If anyone is interested I thought I would post here before EBAY. I am selling

\$200 1 MEC

\$500 2 EDS1000 cards

\$350 2 CT16sHi,

Anyone has attaching board for EDS1000 ??

The one that adds effects to a card.

All eds1000 have one on it.

So if you have a non working eds1000 chances are that maybe the attaching board might work.

Regards,

Dimitrios These belong to a friend. I purchased two of the systems off the old user group from some of you guys. These were put together for my friends son who was hoping to produce his own work and tour. The kid got hired into an established group and these three systems have essentially been sitting in a music room for 3 or 4 years and have been powered up less than 20 times for less than 100 hours on time since the day I built and tested the whole rig.

The extras are some 8in cards. ALL of this stuff is Blackie and in damned fine shape. This posting is not an inference that one buyer must take all. However, if one buyer does take all, I'm sure the one-transaction and ship to will incentivize a lower total cost to said buyer.

I am real tempted to take one of the sys' myself but I am moving within a couple weeks and can't push the cash at the moment and not super busy tracking anyway.... also haven't needed backupware for a while... great luck with the four systems I've been using for years and years.

I don't think any reasonable offers will be refused... but this seller will define reasonable. He doesn't need the money... but he didn't get to that condition by being stupid or cheap.

I'm rep'ing him so talk to me here or at mark@hotguitartracks.com And no the systems are not mine... I'm keeping them.... love'm to pieces.... always have.

If any of you are on Facebook and wanna connect, I'll be happy to send a friend request to you as I'm unsearchable. Just drop your FB addie in your response and I'll hit you up.

W. Mark WilsonHi,

I am selling a new unique made U47 clone bottle (long) with new spider with chinese version of K47 capsule (ALREADY inside bottle on its holder) plus a chinese transformer as a DIY kit for 245\$ including shipping.

I have 3-4 pieces of all these left.

There were only 8 bottles made!!

The body has a unique logo mUse47 and I have ordered this at specific tailored length! No other like these exactly around.

Regards,
Dimitrios

ps: for another 25\$ I can throw in a EF42 tube with metallic holder and WIMA capacitors polypropylene 0.47 and 1.0uF Any of this stuff still available? My specific need is EDS-1000 cards. Two of mine died in the last 6 mos. I'm "Gantt Mann Kushner" on facebook. Do we need a Paris Diehard facebook page?

GanttI have a part time job doing ebay listings for a company in Silver Spring, MD called Protech. We have a DP/2 that I'm about to list. It's in very good - might even call it excellent - cosmetic condition and seems to work perfectly. Anyone interested? They seem to go for around \$200 USD. Email me at ganttmann@gmail.com. Stuck it up on ebay for \$149:

<http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=390215374781&ssPageName=STRK:MESELX:IT>

I would be interested in buying the 8in card from you. I have 150 dollars.If you have 8in and/or 8 out cards for sale please email me at, jcookman@sagu.edu.

Thanks,
johnHi John,

I've sent you an email, I've still got an 8 in left for sale.

thanks

KerrHi John,

I've sent you an email, I've still got an 8 in left for sale.

thanks

KerrHi,

I have 3 bits of Paris gear left:

EDS1000, ADAT card, and 8 in card (both blue face)

for sale seperately or together if you like.

Sensible offers welcome. I'm in the UK so am prepared to take shipping, etc into account.

thanks

KerrStill have this rig for sale? What price? tonehouse, Potomac, MdLooking to expand... drop me a PM if you have an extra to sell.

- KIf anyone is looking to add an extra MEC I have an extra one..possibly two. (really makes routing and tracking easier if you have more than one EDS card - simplest work around to the 16 track submix limit when tracking...no switching cards around to match inputs or moving takes to different sub-mixes)

\$100 shipped.

Thanks,
Matt Barber
615-886-8352

www.sandboxproductions.comHi There;

I miss Paris but have moved on due to SMPTE requirements. I have some Paris units I am getting

ready to list on Ebay. I thought I would first list the stuff here just in case a Paris Forum user needs one of them or would like extra parts on hand.

EDS1000
2 Empty Mec,s
442 interface
Cables
interface 2
2 Adat cards for mec

Will forward pics if interested, will also be listing on Ebay soon. Any reasonable offer pre ebay.

This stuff was all working fine but I no longer own a computer with the right PCI slot to hook back up. Has been in a box in closet for a couple years. All offers considered on any of it.offers....anyone at least looking for one?Very good condition.

\$175.00 OBO\$300.00 OBO. Mint.

Paypal only, will ship in continental USA.Hi,

do you still have the 8 out?Here's what's left as of 8-01-10

Very light usage:

Ensoniq Paris Blackface Rig & Hardware:

- (1) C16
- (1) EDS 1000
- (1) Mec Chassis
- (2) 8 in cards
- (1) Ensoniq foot switch (for punching in)[/quote]

\$75 shipped....???- how much are you willing to take for the EDS 1000 card? \$90.00 sound ok? would offer more, if i HAD more to spend! i assume it's in excellent working condition? any problems with the connector for the cat 5 cable on the card, to the c-16? somehow, the pins in my connector have gotten bent, and it makes the connection with the c-16 very funky- and THAT, along with a few other reasons, is why i need another card---
let me know what you think.

thanks, brother. very much appreciate it.

yours most sincerely,

harry eare you selling everything seperately, or as a single unit? if seperately, how much for each piece? if as a single unit, how much?

thanks!

harry eWhat's left as of 8/10:

- (1) EDS 1000 card
- (1) Mec Chassis/w Mec Master, Blackface
- (2) 8 in cards, Blackface
- (1) Ensoniq foot switch (for punching in)Hi all,

I love Paris, but upcoming tv/film work this fall will take me more and more in the PTHD/Logic

direction, and maintaining 3 full systems including a huge paris rig is taking up a lot of energy and space (which I don't have a lot of), so I've decided to sell most of my Paris gear.

I'm listing some items on ebay, but I'm open to considering offers here first. I'd prefer cash (Paypal), but am also open to considering trades. I'd consider quality outboard, mics, eq's, comps etc. esp. any 500 series modules.

Here's what I've got available:

4 EDS-1000 cards in a Virtu Via pcie->pci expansion chassis housed in a 4u atx case with a OCZ 600W power supply and fans. (I've been using this with an intel mac pro). * All 4 EDS cards and cable sets sold

4 MECS, each mec has 2 adat cards, mec cable, and ac cable. - *1 MEC and 2 adat cards SOLD

1 Control 16 - * SOLD

All gear is black.

All shipping would be from Vancouver, BC Canada.

(KG - if you are interested, I can deliver

Shoot me a pm if you are interested in anything or want more info/pics.

Cheers,

TC

Hi Guys,

Just got the ADAT card left (blue face)

sensible offers?

thanks

KerrI've now got some stuff up on Ebay also:

Virtua Via Expansion Chassis in Rackmount ATX Case

<http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=230515332141>

18) Behringer Ultramatch digital
converter (100E)

Thanks

Dimitrios

\$150 - Sorry dimitrios - not interested in any trades What are you asking for the EDS cards?

MikeHow much for three Eds 1000 cards?Hello,

I am looking for an EDS card, contact me if you consider selling one of yours

ThanksI have 2- Interface 442's

2- Control 16's

1-PCI card

Make me an unreasonable offer...I'll most likely take it:)

Hello there,

I am looking for EDS1000 cards, do you have any left ?

Best regards

Davide3 adat cards and 2 mecs still available. Make me an offer.

<http://cgi.ebay.co.uk/ws/eBayISAPI.dll?ViewItem&item=110594899399&ssPageName=STRK:MESELX:IT>

Thank you.

DimitriosHey Di, I dumped my Pulsar/sync plate as well, good card but just wasn't fitting into my work habits.Hi,

I've got one Blue Face ADAT card left for sale.

I've also got the RME HDSP9652 card that I used to sync Paris to Cubase/Reason.

Guaranteed sample accurate sync with Paris and any sequencer.

For Sale separately, or discounted for both.

Offers?

thanks

KerrI'm interested... PM'd you

Cheers

KrisAll sold,

thanks

KerrPM sent...8 Input cards 150 euro each (2 available)

8 Output cards 150 euro each (3 available)

MEC 50 euro

MEC missing headphone level knob further ok 40 euro

IF2 25 euro

Only light hobby studio use.

System consists of 2 EDS1000 plus one spare included.

C16

MEC

3x 8 inputs

1x 8 outputs

V3 software

System is fully functional and working to see in South West Ireland

Bought From Caruso music Will ship worldwide

Make me an offer!

tel +353 27 74270

System sol. Thanks Samo! Good luck with it. You will find a lively suport group here.

Regards,

Jouke

I've decided to part with the greater portion of my Paris Rig.

Here's what's available:

- (2) EDS-1000X (including interconnection cables)
- (2) C16 (recently cleaned, so the rotary encoders all work well)
- (1) MEC & scsi cable
- (2) Analog In Cards
- (1) Analog Out Card
- (1) ADAT Card Blackface
- (1) ADAT Card Blueface
- (1) IF442 (provided I can get my IF 2 to work)

I figure street prices are around \$150 each for EDS, and expansion cards, and \$50 each for C16's and MECs.

The whole bundle would be worth \$1200 at these prices, but I'd be willing to let it go for \$900 + shipping from Ottawa Canada if bought as a whole.

I'll give 2-3 weeks to see if anyone's interested buying the whole thing, and if not, then I'll part it out.

Cheers

KrisHi,

If you have Paris output cards left would you trade with something from the following list ?

- 1) 4 x Telefunken ECC82 smooth plate nos
 - 2) 1 x Telefunken ECC801S smooth plate nos
 - 3) 2 x dbx silence
-
