I I just read that the Cubase plugin is a SMPTE generator not a reader. From what I can tell ADAT sync (from Paris using XP?) or MTC are my only options.

I figured I'd end up with t

to. Sooooo....what do you guys like?

I don't use the norton firewall. I use the free Zone Alarm one.
I kind of like the system tune up thing that Norton did. I don't think I've had a crash...ever, on this comp.

is day and age of plugs.
Gene, any thoughts?
