our math on the 100k digi upgrade.

I went from a audiomedia (still have) to Pro Tools 001(cost 400.00) From there, toa Mix Plus..Cost (great deal $3,800 with 1622 interface)...From there..HD2acel..cost $6,500.00 with -1-192.

I don't see where 100k comes in. Nor do I know of any of my buddies who spent 100k in upgrading their PT DAWS..
